Dispreportion of Manufacturers.

Among the various schemes that are roposed for the advancement of the naterial interests of the state, we know of none so practical or so efficacious for to accomplishment of that desirable pu pose as the establishment of manufactures for the working up of our rough wealth. The amount of raw ma-

real is simply incalculable. If we begin with the timber, we shall fin loaks and walnut, cypress and cedar, \$1,200 a yard, which a man could crowd ash and poplar, the beautifully curled maple, and the tough, elastic hickory, inn and gum, the lordly pine and the mountain tops and in the broad plains, a married man.' ready and waiting for the hand of the artizan to fashion them into spokes, felloes and linbs, plow stocks, harrows and helves, houses, furniture and ears, boats, bridges and railroad ties, tele- ways than one." graph poles and Nicholson cavements, for which our cedar forests supply the very best and most durable timber buckets, baskets and chairs; barrels for flour and hogsheads for tobacco, wooden bowls, cogs, broom sticks, tan

bark, etc., etc. Surely here is a wide field of itself. but we proceed to iron, and find ore in forty-four counties sufficiently abandaut to justify the erection of I'rem one to forly furnaces in each. But the product of the furnace may itself he considered a raw material to be wrought up iuto valuuble artieles, such as plows, hoes, axes, mattocks, hurrow teeth, shovels, chains, wagons, carts, wheelbarrows, and other implements for the farmer; sheet iron, car wheels, axles, eastings, grates, stoves, horse shoes, nails, railroad iron, sp kes, and the almost infinite uses to which iron may be

applied, which opens another large field. Then there is copper and marble which open an extensive field for manufac-Our cotton fields, growing the staple | In one of George Sand's stories she for the most useful fabries of domestic makes a man say: "In one short hour engine, and I want you to make a fair trip of your life. You're a fine, bright youngster: I don't never say things to compliment.

Just takin' drieks for good fellowship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there myself. Sit down on the ship? Yes, I know all 'bout that. Been there only in the fabries of domestic and that those a fourth. A show-plow, the fabries of domestic with the shows in the fabries of domestic the fabries of domestic and that those a fourth. A show-plow, therefore, from the toth of July and the shows a fair the last of July. A shift took a fourth. A show-plow, with the show is the fabries of domestic with the shows a fair the last of July. A shift took a fourth. A show-plow, at Alta it took a fourth. A show play is the fabries of comestic with the material for factories with the material for factories the last of July. In this period with such that the show is fabried with the material for factories the egg company with the spow is all in daily and increasing demand, and in regard to Confederate military oper-Bismarek answered the snow-p'ow and six ears. Such a sight crease in the number of the birds the manufacture of them would give ations. The general goes largely into rise to establishments for the manufact the controversy between himself and which, like the main limbs of a tree, would run out into infinite branches, caeli one bearing its fruit and all supported by the generous soil, and the

soil in its turn protected and shaded by As for power, the vast number of streams that rage and fret against their rocky banks in two divisions of the state, invite the industrious to put them to work. For ages this wealth of power, equal to the combined strong arms of millions, has been wasted. For gen- saint, everything is just as I left it. currents glide in untamed beauty to the large of the largus, This name origisea.
